

The **JACQ.** brand is a product of the JACQ. company headquartered in Mannheim, Germany. The company's sphere of activities revolves around the development and manufacturing of the biomechanical material, "**COMDUREN**", for pressure absorption and shock attenuation in shoes as well as the development, manufacturing and sales of footwear. The JACQ. shoes will be sold solely online. Therefore, in 2017 JACQ. started **MyShoes Smart Commerce**. This new software, based on the newest smartphone technology and SAP Cloud Platform, makes looking for a suitable shoe that perfectly fits as easy and playful and eliminates product returns. JACQ. is in the SAP Startup Focus Program for HANA Cloud Platform.

SOLUTION ARCHITECT (f/m) SAP HANA Cloud Platform

We are looking for someone who has:

- A degree in Computer Science, Systems Engineering, or a related field with excellent grades
- Deep expertise in building scalable Web- and SaaS applications preferably using SAP HANA Cloud Platform
- Solid experience in creating innovative solution concepts and software architecture and design
- Minimum 5 years of relevant experience
- Deep knowledge and profound understanding of mobile technologies, services and mobile development
- Deep knowledge of SAP Integration Technologies, strong knowledge of J2EE, JPA, Java Frameworks (Apache Spring, Apache Commons etc.), ODATA, REST, HANA, UI5
- Excellent Know-how in Hana Cloud Integration and extension of cloud applications
- Sound knowledge of Software Development Life Cycle, Object Oriented Programming Principles, Design Patterns, and Software Architecture
- Solid Know-how of agile methodology (scrum) and Design Thinking
- Experience in UI/UX design
- Ability to learn quickly and drive topics to their completion and success
- Attention to details combined with the ability to focus on overall goal
- Team spirit, collaborative approach and good communication skills
- A good command of both English and German

Your tasks would include:

- Create architecture concepts and build high performant solutions on SAP Cloud Platform
- Lead design, development, testing, documentation and support activities
- Present solutions to customers and continuously strive to improve customer satisfaction
- Continuously adapt and innovate new solutions to new requirements from customers
- Engage with SAP SE Development team/Architects

What we offer:

- Rewarding full time position with a competitive compensation
- Working with novel technology and techniques
- Beautiful working atmosphere in a modern office in the most creative district of Mannheim
- Innovative working culture including flexible working hours and home office
